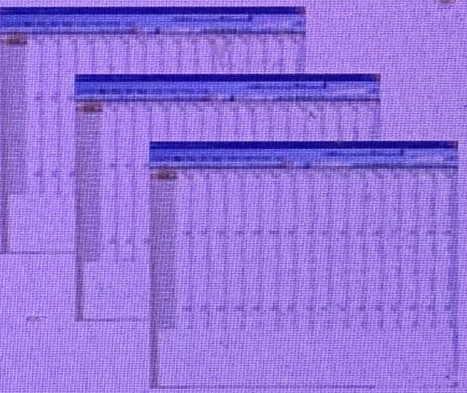
Data Logging (ME96SSHA-MB/ME96SSRA-MB with ME-0000BU-SS96 (optional plug-in module))

- There is available an optional module which can retain data even when communication cannot be established.

CSV file data

Data in more than one logging unit can be managed with one SD memory card.



Note: Use the SD memory card (EMU4-SD2GB) made by Mitsubishi Electric.
Use of any memory card other than our product (EMU4-SD2GB) is not covered by the warranty.
